### **Reward Raised to \$2500 for More Information on Old Cabin**

**St. George, Utah:** The Bureau of Land Management (BLM) and Kern River Pipeline have raised the reward to \$2500 for information leading to the identification of the person or persons who destroyed the old cabin at Jackson Spring.

The structure was knocked down by the use of a machine sometime near January 28, 2003, and burned on January 29, 2003. If anyone has information about this incident, please call (800) 722-3998 or (435) 632-9111.

BLM is asking for any information regarding the age of the building and its purpose. Telephone calls to the BLM shortly after the destruction of the building reported it was an old stage stop between Goldstrike and Modena, and others said it was a schoolhouse for folks out in the Motaqua area. If anyone has more information about the history of the building please call Geralyn McEwen at (435) 688-3296.
